In the recent trip, I believe I might have been the luckiest one. While all the brothers, sisters and younger members of the group carried a heartfelt wish to visit Taiwan and attend the Dharma Assembly, everyone had to make great efforts to be able to attend. For me, my initial purpose was simply to complete the tasks assigned by my company. However, this journey turned out to be an extraordinarily precious karmic connection. I was blessed with the chance to respectfully pay homage to the venerable Monks and Nuns, meet Ms. Karen and Ms.Tam, and connect with all the brothers, sisters and younger members in the group.

Having worked in the tourism industry for many years and undertaken countless trips, this was by far the most special journey for me. It left me feeling truly warm and deeply touched. I realized that the unseen world is not frightening in the least. Instead, I felt the intense bond of familial love bridging two different realms, even though I had never known the physical appearance of my loved one.

The sacred chants of the Sutra during the U Minh Precepts Ceremony resonated deeply with me, although the language was unfamiliar and I couldn't grasp the full meaning, I could deeply feel the solemnity of the ceremony. Throughout the days of this journey, my mind remained clear, free from distractions and stray thoughts. After the U Minh Precepts Ceremony on the second afternoon, the sound of the Monks and Nuns chanting continued to echo in my heart.

In the midst of our busy daily lives, finding even a few moments to maintain a tranquil, undisturbed mind is already challenging. How priceless it was to experience four days of such inner peace and clarity!

I am truly and deeply grateful to the venerable Monks and Nuns, Ms. Karen, Ms. Tam and all the brothers and sisters who made this precious karmic connection possible, I thank you all from the bottom of my heart.

I wish all the best to the venerable Monks and Nuns, Ms.Karen Ms.Tam, and all the brothers and sisters. May everyone always find peace and happiness in body and mind.

Thank you for taking the time to read this heartfelt letter of mine.

Bow in Respect,
Dương Thị Bảo Trang
